

Taking a professional, practical and results-oriented approach, the Firm provides an extensive range of intellectual property services, assisting clients in the identification, development, protection, management, exploitation and enforcement of their intellectual property rights. In particular, we provide assistance with:

- General clearance, protection, and management of patents, trademarks, copyrights and other intellectual properties.
- Prosecution of applications and maintenance of registrations before the Intellectual Property Office.
- Monitoring of applications for registration and/or registrations of trademarks and patents, which might infringe upon or be in conflict with the intellectual property rights of our clients.
- Prosecution of civil and criminal cases involving infringement and unfair competition (enforcement and dispute resolution).
- Negotiation and registration of licensing and technology transfer agreements.
- Advice on telecommunication and media and advertising laws and regulations, consumer and product regulations and unfair competition.
- Preparation and review of other intellectual property-related agreements.
